

INTERNATIONAL SUMMER COURSE IN GREEN BUILDING

Learn how green building design can provide solutions to climate change.

Design for Sustainability in the Built Environment: Interactive Workshop

ENVS 4230 6.0

Fostering Literacy in Green Building Strategies in an International Context

This is an intensive three-week 6.0 credit study program. Students from Ontario and around the world will have the opportunity to engage in a stimulating collaborative experience culminating in a cross-disciplinary design charrette. The workshop is housed in York University's Faculty of Environmental Studies but open to students from all disciplines.

NOTE: Course is open to third and fourth year undergraduates. Course enrolment is limited to 30 students.

WORKSHOP: 05.03 - 05.21. 2010

APPLICATION DEADLINE: 04.21.2010

HIGHLIGHTS:

-  Unique interactive workshop
-  Practice design methodologies & tools
-  Collaborate with students from around the world
-  Field trips and cross-disciplinary design charrette
-  Guest lectures by experts in green building
